

Payroll Services

Outsource your tedious and complex post-payroll processing tasks to Workforce Go!

You've decided to process payroll in house for greater flexibility and control. It makes good sense given that internal HR and payroll staff do most of the work — from preparing, validating, and maintaining data to fixing errors to meeting compliance requirements — even when payroll processing is outsourced. Plus, an in-house solution gives you easy access to payroll data for inquiries and reporting, which saves valuable time and effort.

But even if you process payroll in house, you may still benefit from outsourcing some of the more tedious and complex payroll-related tasks, such as tax filing, garnishment processing, and check printing, especially if your organization has locations in multiple states. In fact, more and more organizations are choosing this option. A recent American Payroll Association (APA) survey showed that 92 percent of respondents outsource tax filing and 71 percent outsource check printing.

Workforce Go! Payroll Services complement the Workforce Go! HCM Payroll solution with services such as tax filing, garnishment processing, and distribution of checks — while providing the ease and convenience of working with a single vendor. These proven services draw on experienced professionals, tested software tools, and information from the Workforce Go! HCM Payroll application to deliver simplicity, security, and seamless integration. As a result, your organization is able to increase payroll efficiencies, reduce operating expenses, minimize tax reporting administration, and free staff resources to focus on strategic priorities.

Tax filing without all the headaches and risk

Tax compliance is the single most difficult and expensive task associated with payroll, especially for organizations operating in multiple states and localities. In addition to preparing and filing taxes, you need to keep up with constantly changing tax laws and regulations. After all, failure to do all this — and do it right — puts your organization at risk for potential penalties.
