

Effectively source, track, and evaluate talent to build an engaged, high-quality workforce.

Managing candidate information across multiple systems often leads to duplicate data, administrative burdens, and delays in hiring. Our solution simplifies job requisitions and candidate sourcing, delivers a positive, mobile-optimized applicant experience, tracks applicant status to enhance hiring results, and seamlessly integrates with our HR module to enable better hiring decisions with smart, efficient tools.

How it Works

Our Talent Acquisition solution optimizes the sourcing, tracking, and evaluation of quality talent, making the process more efficient and cost-effective while enhancing the applicant experience with easy online applications. Integrated into our unified platform, it ensures that applicant information seamlessly transitions into employee records, reducing administrative effort and providing a single, reliable record.

Benefits

- Automate recruiting processes to eliminate paper, streamline administration, and drive efficiency
- Create job requisitions with automated approval workflows and gain at-a-glance visibility into applicant status
- Proactively source candidates by posting job listings to your career website and 8,000+ free job boards and by leveraging premium job board integration
- Focus on best-fit candidates by asking pre-screening questions in online applications and leveraging data about your existing workforce to make better hiring decisions
- Deliver a great applicant experience that reinforces your employer brand while making it easy to search for jobs, upload resumes, and apply online
- Optimize pre-hire engagement by sending automated notifications and configurable email communications to applicants

Simplify job requisitions and candidate sourcing

Deliver a positive online applicant experience

Mobile-optimize the candidate experience

Track applicant status to optimize hiring results
