Better Together

workforce GO & Sage Intacct

Sage Tech Partner

"Once Workforce Go and Sage Intacct were in place, The Speech Pathology Group revamped pretty much every process in HR and accounting and felt improvements right away. I love having designated client specialists. I can email or call them any time, and I usually get a response that same day. It is wonderful to always have someone there for me. I know who to call for each issue and can rely on 4 or 5 different people."

- Erika Seitz, Systems Controller/Accounting Manager at **The Speech Pathology Group**

Connect Your Processes & Empower Your People

The power of Workforce Go's bidirectional integration with Sage Intacct provides a seamless blend of functionality and convenience that unites your people, business, and operations management into a single solution that grows with you.

Why Choose Workforce Go & Sage Intacct?

Workforce Go prioritizes the needs of your people and your business instead of expecting you to fit the mold of a generalized solution. This means you benefit from a truly seamless, tight integration that allows you to choose options tailored to meet you where you are right now and gives you the ability to scale and grow when you need to. We offer personalized support and provide real-time functionality that brings your people, business operations, and finances together.

Tailor your integration to match your business's unique needs

We understand that every industry and organization has different priorities and pain points. You can choose only what you need - from the number of EINs and specific Sage Intacct Dimensions to job costing needs and industry specifications, you build the solution that matches your business's needs.
